## PERSONAL PROJECTS

### The Book Buddy (09/2020)

- An interactive and competent website for high school students(grade 8-12) to access their study materials during this pandemic situation effectively.

### Voice Prescription (09/2020 - Present)

- A mobile app developed for doctors to help patients instantaneously during this pandemic situation, by prescribing medicines just by doctor's speech our app uses speech to text recognition and also maintains patients history of a particular doctor.

### Fakequipo (04/2021 - Present)

- Our Dapp website FakeQuipo is a blockchain based application which can be used to prevent the supply of counterfeit medicines, by deploying the medicine details in our local blockchain. Our blockchain acts as a public ledger which ensures traceability and transparency of product details in a secured way. Our blockchain use SHA256 algorithm to secure product details.
